PRSNA Coronavirus / HEERS III

On March 2021 President Biden signed a new emergency plan known as the American Rescue Plan Act of 2021 (ARP) (Pub. L. 117-2) which grants new relief funds to active students during the emergency of Covid-19. In compliance of the Higher Education Emergency Relief Fund (HEERF III), the PRSNA have disclosure the use of funds. In our institution, this will be used 100% for students as emergency aid for expenses related to the coronavirus under ARP (a) (4).

Within the reporting and grant distribution process, the Puerto Rico School of Nurses Anesthetists (PRSNA), notifies the student community that the institution received the amount of $ 9,078.00, which will be distributed among students enrolled in Fall 2021 semester. The students must have completed their Free Application for Federal Student Aid application also known as FAFSA and meet the requirements of the Satisfactory Academic Progress. It's estimated that this emergency relief fund will impact about 103 students for $ 88.13 per each. This determination of eligibility is made in accordance with both federal and institutional policies.

For any questions related to the HEERF III or the distribution process, you can contact our office.
